No.189 A1/53 dated 24th February 1953.

UNDER SECRETARY
27 FEB 1953
DEVELOPMENT DEPARTMENT

Sir,

Sub:- Industries - Sericulture - Government Silk Filature Kollegal - Final report on the experiments conducted on raw silk, Silkwaste and conditioned cocoons.

Ref:- G.O.No. 2529 Development dated 14th June 1952.

In the Audit Report for 1940-49 of the Government Silk Filature, Kollegal the Chief Auditor, States Trading Schemes has stated that fairly heavy shortages as also some excesses were found at the time of delivery of silk and that it is desirable to fix a limit to such variations, or in the alternative to make arrangements to get the filature silk conditioned and the conditioned weight certified to by a proper and independent authority. In G.O.No. 2529 Development dated 14.6.1952, Government have accepted the first suggestion and called for a report on the results of the experiments conducted by the Sericultural Expert to fix up the percentages of drya es. The Sericultural Expert after conducting ~~proposed~~ experiments on raw silk, silk waste and conditioned cocoons has suggested to fixing up of the following percentage limits of variations in weight if kept for less than one year and over one year:-

*prolonged

		Less than one year.	Over 1 year.
1.	Raw Silk.	0.5%	1%
2.	Silk Waste.	1.0%	1.0%
3.	Conditioned cocoons.	2.5%	4.0%

I agree with the proposal of the Sericultural Expert and request that Government may be pleased to approve the above per centage limits of variations. I request early orders of Government.

Subject:- Industries - Sericulture - Govt: Silk Filatures, Kollegal - Experiments on raw silk, silkwaste and conditioned cocoons - Percentage of drayages - Fixed - Orders issued.

Read: G.O. Ms 2529 Dev dated 14-6-52.
Report from the D. Dte No 189 D1/53 dated 24.2.53

G.O. No 1345 dated 24/3/53.

In his ~~audit report for 1948-49~~ on the accounts of the Govt. Silk Filatures Kollegal for the first half of 1948-49, the Chief Auditor reported that fairly heavy shortages as also some excesses were found at the time of delivery of silk due to its hygroscopic nature and suggested the desirability of fixing a limit to such variations or in the alternative arrangement made to get the filature silk conditioned and conditioned weight certified to by a proper and independent authority. The suggestion was examined in consultation with the D. Dte and in G.O. No. No. 2529 Dev dated 14.6.52 the D. Dte was requested to submit a report on the results of the experiments conducted by the Sericultural Expert to fix the percentage of drayages. The Sericultural Expert after conducting prolonged experiments on raw silk, silk waste and conditioned cocoons has suggested that the following percentage limits of variations in weight if kept for less than one year and over one year may be fixed.

	Less than one year	Over one year
1. Raw Silk	0.5%	1%
2. Silk waste	1.0%	1.6%
3. Conditioned Cocoons	2.5%	4.0%

2. The D. Dte agrees with the proposals of the Sericultural Expert, and has requested the approval of the Govt. to the proposals. After a careful consideration of the proposals the Govt. accept the suggestion of the D. Dte and direct that the following percentage limits of variations in weight be fixed in respect of Raw silk, Silk waste and conditioned cocoons

if kept for less than one year and over one year.

	Less than one year	over 1 year
1. Raw silk	0.5%	1%
2. Silk waste etc.	1.0%	1.5%
3. Conditioned cocoons	2.5%	4.0%

C. 22850 G/53 | Sub:- Industries - Sericulture - Govt. Silk Filatures Kollegal - Experiments on raw silk, silk waste and conditioned cocoons - Percentage of dryages - Fixation

Ref:- From the D.I.C. No. 189 D1/53 dated 24.2.53

Para 3 p 3 c.f. (x) In his ~~audit report for 1948-49~~ note for the first half of 1948-49 on the accounts of the Govt. Silk Filatures Kollegal, the Chief Auditor reported that fairly heavy shortages as also some excesses were found at the time of delivery of silk, due to its hygroscopic nature, and suggested ~~the~~ the desirability of fixation of a limit to such variations or in the alternative arrangements made to get the ~~silk~~ Filature silk conditioned and conditioned weight certified to by a proper and independent authority. The D.I.C. then reported

Para 3 p 7 c.f. (x) that experiments were being conducted by the Sericulture Expert in order to fix up the percentage of dryages, and that it would take some time to yield conclusive results. In G.O. Ms. No. 2529 Dev dated

Para 2(i) p 25 c.f. (x) 14.6.52, the D.I.C. was requested to submit a report on the results of the experiments conducted by the Sericultural Expert in the matter. The D.I.C. has since submitted his report - vide p 1 c.f. The D.I.C.

P... p. c.f. agrees with the suggestion of the Sericultural Expert for fixing up the percentage limits referred to therein and requests early orders approving the same. The D.I.C.'s recommendation may be approved. Subject to approval, a draft order is submitted.

Finance may see before issue.

Bottom of

With reference to Under Secretary's query at p 1 above it is submitted that the Chief Auditor has not indicated in his note, the percentage of shortage as found by him – vide para 3 on p 3 cf of (X).

In the Audit Report on the accounts of the silk Filatures for the period 1.10.48 to 31.3.49, the A.G. pointed ~~out that it was~~ desirable ~~to~~ fix percentage of losses in the processes of cleaning, winding, ~~and~~ bleaching etc, and percentages were fixed accordingly – vide para 9 of GO Ms 5334 Dev dated 29.12.50 and para 4 of GO Ms 690 Dev dated 25.2.52. The A.G. did not however point out any loss or excess in the transaction of the actual finished product, the variation in which it is now proposed to fix. For orders whether the D.S.C's proposal will be accepted and the draft order approved.
